DETAILED ACTION

1. Amendment and response filed by applicants dated Jun. 1, 2005 have been entered and considered carefully.

Claims 3, 17-21, 24, 27-49 have been canceled. Claims 1-2, 4-16, 22-23, 25-26 and 50 are pending.

2. Claims 1-2, 4-16, 22-23 and 50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Please note that the instantly amended claims containing variables R_{10} and R_{11} for which no antecedent basis or description were found in the specification thus are NEW MATTER.

Removal of new matter is required. In re Russmussen 210 USPQ 325.

The amended claim 1, the variable R_6 was not defined.

The amended claim 2 antecedent basis or any subgeneric scope being drawn to R_1 is C₄₂₅ were not found.

The newly inserted proviso of claims 22-23 are not found in the specification. Please note that any negative limitation of exclusionary proviso must have basis in the *original* disclosure. Ex parte Grasselli 231 USPQ 393.

3. 35 U.S.C. 101 reads as follows:

Art Unit: 1625

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 7-16 are rejected under 35 U.S.C. 101 because the claimed inventions are directed to non-statutory subject matter. Please note that the claims lack active steps for a process of making. The term “forming” “reaction” “functionalizing” etc. do not define the steps required for carrying out the process as required by the statute. It is required that a process of making final products be specifically claimed with the starting material, steps and conditions of how the starting material is converted to the final products.

4. After removal of the new matter, the rejections under 35 USC 102(b), obviousness type double patenting, 35 USC second and first paragraph of the previous office action would be maintained for the pending claims.

5. Claims 25-26 are allowable.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1625

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
